

Pricing Guide

Fixture Design

Overview

Automated fixture design utility used to create the support fixtures for welding or laser applications.

- ☑ Includes CAD translators for 3D IGES and Parasolid X_T (plus STEP in Pro Version)
- ☑ Up to 4 hours of online training
- ☑ Perpetual licensing
- ☑ Second year (and thereafter) support and maintenance for 15% of original package cost
- ☑ Pro/Standard versions Include first year support
- ☑ Lite version includes 3 month support, options for Software Maintenance Agreements (SMA) and extended support

Optional Floating license support, enabling the use of the software seat(s) across the local network

Optional CAD translators - please call for details.

See reverse side for Nucleo version comparisons

Pro*: \$7,995.00
Standard: \$5,995.00
Lite: \$3,995.00

\$1,250.00

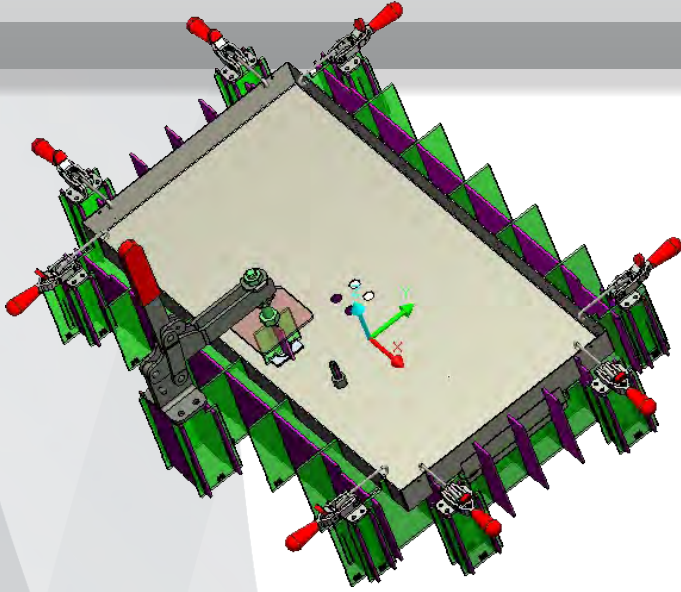

\$900.00 upwards

*Pro Version scheduled to release Q3 2020
